

# GOVERNMENT PERMITS & LIAISONING

## GOVERNMENT PERMITS AND LIASONING SERVICES

Government agencies play major role in wind energy development at the local, state, regional and national levels. Local government units are responsible for zoning and permitting the wind turbines. AWTEpl have a good reputation and have maintained healthy relationship in state distribution boards for evacuation and grid permission with the help of dedicated team for looking after the permission and liaisoning to cater the requirements of the customers specified norms. We also have a strong hold on Liaisoning of nodal agency in Gujarat and Tamil Nadu district and have successfully completed Wind and Solar projects.

We serve our customers with:

- a) Developers permission
- b) Transfer permission
- c) Evacuation permission
- d) CEIG approvals.

## DEVELOPER AND TRANSFER PERMISSION

AWTEpl undertakes the Liaisoning with Gujarat Government nodal agency like GEDA for project approval, transfer and developer permission. We also have a in house team of professional employees experienced in wind farm projects.

## GETCO LIAISON FOR EVACUATION

Power evacuation is a one of the most important aspects of any Wind power project to have clear power evacuation infrastructure established in time and cost-effective way. AWTEpl helps the customer in getting necessary permits and approvals for the transmission line of 33kv, 66kv or 220kv.

## CEIG APPROVALS AND VERIFICATION

AWTEpl could be one point contact to get you CEIG clearance for your Wind and Solar power project. The Chief electrical inspector's approval is important for all kind of power generation project. We AWTEpl examine whether all electrification on the project sites are done as per the electrical code of the particular state. We also get the verification done, for submission of project electrical drawing, control room design, etc.
